Dear Dispensing Pharmacist,

I am a registered carer for Shared Lives South West, a regulated care provider that provides Shared Lives services across the South West of England.

I provide care and accommodation in my own home for the people you are dispensing medication for. Shared Lives South West provides the regulated activity of personal care.

Please may you issue a printed Medication Administration Record (MAR) when dispensing repeat prescriptions, which will usually be boxed. This will enable me to manage and administer the medication as safely as possible, reducing the risk of errors from regularly handwriting medication detail and instructions.

Many thanks

*Shared Lives South West*

Carer on behalf of Shared Lives South West
